Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Upon further consideration, an election of species requirement is now being made as set forth below:

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention: 1) handle that includes a transparent receptacle member housing a display pattern and all contained within a hollow transparent member containing oil and 2) handle that includes a hollow transparent member containing an oil with a display pattern suspended therein and permitted to move freely within the oil.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Claim Objections

3. Claims 1 and 3 are objected to because of the following informalities:

Claim 1, line 5, after "handle", insert --,--.

Claim 3, lines 1-2, "the substantially hollow transparent handle" lacks proper antecedent basis.

Appropriate correction is required.

Specification

4. The disclosure is objected to because of the following informalities:

Paragraph [0019], line 6, should "inserted to the hollow chamber 21" read --inserted into the hollow chamber 21-- instead?

Confusion arises with the description of "sealing projection 21b" as recited in paragraph [0020]. Specifically, the description is not clear as to the structural distinction

Art Unit: 1744

between "sealing projection 20b" (paragraph [0018]) and "sealing projection 21b" (paragraph [0020]). Sealing projection 21b appears to be part of the cap plate 32 as shown in Figs. 3 and 4.

Appropriate correction is required.

5. Any inquiry concerning this communication or earlier communication from the Examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The Examiner can normally be reached on Monday through Thursday and every other Friday.

If attempts to reach the Examiner are unsuccessful, the Examiner's supervisor, John Kim, can be reached at (571) 272-1142. The number for Technology Center 1700 is (571) 272-1700.

The central fax number for the organization where this application or proceeding is assigned is (703) 872-9306.
